Position Title: Biomedical Manufacturing Technician

Job Overview:

Inanovate is looking for a highly motivated and detail-oriented Biomedical Manufacturing Technician to join our team. In this position, you will play a vital role in the production of cutting-edge biomedical devices and diagnostic tests. Your expertise will ensure that manufacturing processes run smoothly and quality standards are consistently met. This position offers an exciting opportunity to contribute to innovative healthcare solutions while developing your technical skills in a fast-paced environment. This individual will need to work in a close-knit team and be comfortable with hands-on laboratory tasks.

Education and Experience:

- Bachelor of Science (BS) degree in chemistry, biochemistry, biotechnology, or related field
- A minimum of 1-2 years of laboratory experience preferred

Duties and Responsibilities:

- Manufacture products with the highest level of quality and efficiency, following established Standard Operating Procedures (SOPs)
- Ensure correct and accurate completion of all documents using good documentation practices
- Maintain clean, safe and orderly work environment adhering to quality and company policies
- Assist with assay development and testing of new products
- Perform other related duties as assigned
- Maintain high standards of quality, a strong work ethic, and professional conduct

Skills and Qualifications

- Ability to operate basic laboratory equipment including pipettes and centrifuges
- Excellent attention to detail
- Strong manual dexterity and hand-eye coordination
- Effective communication skills
- Experience with clean room policies and procedures preferred
- Experience with assay development, microarrays, and microfluidics preferred

Remuneration:

The reimbursement package will be commensurate with the experience level of the candidate selected and will include a benefits package and stock options.

Application Process:

Interested candidates should forward their resumes and cover letter to:
