Position Title: Technical Supervisor –CLIA Laboratory

Description:

Inanovate is a diagnostic start-up with its first FDA Cleared test for Lyme disease on its Bio-ID800 platform. Inanovate is now expanding operations to include a CLIA Lab to support the commercialization of our products and continue to expand our product offerings. To help lead this effort, we are seeking an experienced leader to serve as Technical Supervisor for a High-Complexity CLIA Lab. The candidate will be responsible for overseeing the daily operations of a high-complexity laboratory certified under the Clinical Laboratory Improvement Amendments (CLIA). This individual ensures compliance with all applicable regulatory and accreditation requirements while driving the mission of Inanovate through operational efficiency, business development, and quality assurance.

Education and Experience:

- Bachelor's degree in Medical Lab Science.
- Certification by a recognized accrediting agency (e.g., ASCP, AMT) preferred.

Essential duties include but are not limited to:

Laboratory Operations Management:

- Oversee the daily operations of the laboratory, including managing workflow, resource allocation, and personnel.
- Ensure timely and accurate completion of diagnostic tests in accordance with protocols.

Compliance and Quality Assurance:

- Ensure compliance with CLIA and other relevant regulatory and accreditation standards.
- Develop, implement, and maintain standard operating procedures (SOPs).
- Lead internal and external audits, addressing findings and implementing corrective actions.
- Monitor and analyze key performance indicators (KPIs) to identify trends, resolve issues, and improve quality.

Personnel Management:

- Recruit, train, and manage laboratory staff.

Remuneration:

The successful candidate will receive a competitive salary for the position and their level of experience and expertise, in addition to Stock Options in a young, fast growing company.

Application Process:

Interested candidates should forward their resumes and a short cover letter to: dure@inanovate.com
